

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph 4 on page 22, with the following amended paragraph:

Each of the pressure-sensitive adhesive films prepared in above described Examples and Comparative Example was adhered onto the surface having a three-dimensional curved surface shape of an aluminum wheel of a motor vehicle (trade name: Cercio, manufactured by Toyota Motor Corp.); the motor vehicle was driven at a speed of 80 km/hour for 60 minutes and then the peeling of the adhered pressure-sensitive adhesive film was evaluated on the basis of the following standards.

Good: No peeling occurred.

Poor: Peeling occurred.
